What The One Is Doing— The Other Should Do—And More

Officers and Directors Of The Two Companies Largely The Same

Get this straight—there are two companies! The one is the Kentucky Mansfield Lead and Zinc Syndicate, and the other is the Louisville Mansfield Lead and Zinc Company. It is the success of the former that has led to the organization of the latter—to do just what the former is already doing but on a larger scale. The officers and directors of the two companies are very largely the same.

It Is The Record Of The One That Makes The Other So Promising

The Kentucky Mansfield Lead and Zinc Syndicate is already in operation and is already paying dividends. It paid a monthly dividend of 2% in January, 3% in February and dividend checks of 3% are now going out for March. The Louisville Mansfield Lead and Zinc Company's holdings are in the same territory, are larger, will be operated in the same manner and should pay even larger dividends.

Certificate of Assay

"The entire sample used for assay. Fairly soft native rock and an easy milling ore, breaking clean which should give a high recovery. Sample accompanied by affidavit as to sample."

The above report was made by W. P. Taylor, the chemist, from samples taken by J. R. Sandage in the presence of Mr. C. O. Storm, Mrs. J. S. Long and Mrs. J. H. Havens, who swear to the taking of these samples on the property of the Mansfield Mining and Developing Company, before Joseph R. Pile, a Notary Public, of Joplin, Missouri.

A Share

The Louisville Mansfield Lead and Zinc Company is capitalized at \$500,000.00—at \$1.00 a share, fully paid up and non-assessable. A very large part of this has already been subscribed—indeed, the company is fully organized and is already sinking the first shaft for the first mill on one of the four tracts (of 40 acres each) on which it holds the leases.

These holdings of the Louisville Mansfield Lead and Zinc Company are at Mansfield, Missouri, where the Mother Lode of the famous Ozark district comes nearest the surface. The 40-acre tract on which the sinking of the first shaft has already begun is immediately adjoining that of the Kentucky Mansfield Lead and Zinc Syndicate.
